INSTALLATION INSTRUCTIONS

Item#4393-77/573 (New. 01/12/2011)

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

MOUNTING THE FIXTURE (Fig. 1)

- 1. Carefully remove the fixture from the carton and check that all parts are included as shown in the illustration.
- 2. Shut off power at the circuit breaker and remove old fixture, including the mounting hardware.
- 3. Position Mounting Plate (B) on the wall, and mark location of two mounting holes. Drill the hole on the wall. Insert the Plastic Anchors (K) into the wall.
- 4. Attach the Mounting Plate (B) to the Outlet box (A) in the wall using the two screws (C). The side of the mounting plate marked "GND" must face out.
- 5. Place the Wood Screws (L) through the hole into the Plastic Anchors (K) secure the Mounting Plate (B).

CONNECTING THE WIRES (Fig. 2)

6. At this point, connect the electrical wires as shown in Fig. 2, making sure that all wire connectors are secured. If your outlet has a ground wire (green or bare copper), connect the fixture's Ground Wire to it. Otherwise, connect the fixture's Ground Wire directly to the mounting plate or Reinforcement Plate using the Green Screw provided. After wires are connected, tuck them carefully into the outlet box.

FINISHING THE INSTALLATION (Fig. 1)

- 7. Place Fixture Body (F) over Mounting Plate (B), fasten with Screws (D) by using Allen Wrench (E) provided.
- 8. Install light bulbs (G) (not included) in accordance with the fixture's specifications. (DO NOT EXCEED THE MAXIMUM WATTAGE RATING!)
- Place the Metal Plate (K) and Glass Panel (J) into Metal Frame (M) and secure with Plastic Washer (I) and Screws (H).
- 10. Secure the Metal Frame (M) onto Fixture Body (F) by using Screws (G).

Your installation is now complete. Return power to the outlet box and test the fixture.

Note: Illustration (Fig. 1) on this manual is for installation purposes only. It may or may not be identical to the fixture purchased.
